

Fixed-price servicing, peace-of-mind care

Turbo AuxiliaryCare

A tailored service agreement that delivers the financial predictability of all-inclusive maintenance at a fixed total cost for auxiliary engine turbochargers.

Application

Medium-speed auxiliary engine turbochargers type A100, MXP and TPS

Features

Fixed price, event-based service agreement including all labor, wear and tear, transport and spare parts needed

Exchange units supplied ahead of time from either Accelleron's asset pool or existing customer-owned units

Operate on your own terms with reduced administration and operational challenges

Benefits

Fixed-price, all-inclusive cover

Break free of financial uncertainty and accurately plan ahead with Turbo AuxiliaryCare from Accelleron.

- Fixed-price, event-based maintenance that includes all spare parts, including wear and tear, labor, and transport.
- Peace-of-mind servicing with exchange units from our Accelleron pool.
- Reduces capital expenditure and prevents cost overrun.

Maximized fleet uptime

With exchange unit delivery ahead of service activity, Turbo AuxiliaryCare from Accelleron enables you to accurately plan around your vessel downtime.

- Accessing Accelleron's asset pool across global hubs or swap in your own existing units.
- Service-by-exchange streamlines the way you do business.
- Remove your operational and financial risks and maximize your fleet uptime.

Ease of doing business

Turbo AuxiliaryCare from Accelleron is a fixed-price service agreement that saves you time by reducing your admin efforts.

- A fully tailored contract with options to exchange covered equipment if your fleet dynamics change.
- Helps you overcome operational challenges.
- Removes administrative hurdles to maximize your ease of doing business.
